

HENDON PRIMARY SCHOOL

Hot/Wet Weather Policy

Hot/Wet Weather Policy is actioned by the Principal or Deputy and children will remain indoors whenever it's raining and at lunch time in hot weather.

Hot/wet weather is signalled by **three blasts** of the siren.

Hot weather is recognized as being a 35 degrees forecast but at 12:40pm we will check the current temperature with the Bureau if in doubt.(<http://www.weatherzone.com.au/sa/adelaide/royal-park>)

If it rains teachers and children are to return to or remain in their classrooms and arrange with teachers in their corridors for a break as on duty list.

Wet weather can be cancelled at any time by the Principal or the Deputy. The signal will be **one siren**. Teachers on duty will then move to their duty areas.

“Children have a responsibility to keep out of the rain/heat.”

N.B. if students are meant to travel from 1 side of school to the other either side of recess to/ from N.I.T., please phone office to see if support person available instead
